

NAME: _____

CMPSCI 120
Scavenger Hunt Homework
Professor William T. Verts

Here are several images from the Internet. For each image, identify what or who the image contains, where it came from (i.e., the Web address), and what it means (as appropriate). You might not find these exact image files on the New, but as long as you can find a representative image for each one that contains the same information it will be close enough. This assignment is handed out on paper because of the ease of finding images through Google image search.

<p>#1: WHAT: _____ WHERE: http://_____</p> <p>MEANING:</p>	
<p>#2: WHAT: _____ WHERE: http://_____</p> <p>MEANING:</p>	
<p>#3: WHO: _____ WHERE: http://_____</p> <p>MEANING:</p>
